

BioLineRx to Present at Annual Rodman and Renshaw Conference in New York on September 13th

September 8, 2011

Jerusalem, September 8, 2011 – BioLineRx Ltd. (NASDAQ: BLRX) (TASE: BLRX), a biopharmaceutical development company, today announced that its Chief Executive Officer, Kinneret Savitsky, and its Chief Financial and Operating Officer, Philip Serlin, will be presenting at the 2011 Rodman and Renshaw Annual Global Investment Conference in New York.

Dr. Savitsky and Mr. Serlin are currently scheduled to present at 2:25 p.m. EDT on Tuesday, September 13th. The presentation will be broadcast over the Internet as a "live" listen only Webcast. To listen, please go to: [webcast link](#). An archive of the event will also be available for those unable to listen live.

In addition, investors attending the conference who wish to meet with Dr. Savitsky and Mr. Serlin for a one-on-one meeting should contact their Rodman & Renshaw representative.

About BioLineRx

BioLineRx Ltd. is a publicly-traded biopharmaceutical development company. BioLineRx is dedicated to building a portfolio of products for unmet medical needs or with advantages over currently available therapies. BioLineRx's current portfolio consists of five clinical stage candidates: BL-1020 for schizophrenia is in Phase II/III clinical trials; BL-1040 for treatment of patients following a myocardial infarction has completed a Phase I/II study and has been out-licensed to Ikaria Inc. for a total deal value of \$282.5 million, in addition to sales royalties; BL-5010 for non-surgical removal of skin lesions has completed a Phase I/II study; BL-1021 for neuropathic pain is in Phase I development; and BL-7040 for treating Inflammatory Bowel Disease (IBD) has completed Phase I. In addition, BioLineRx has nine products in various pre-clinical development stages for a variety of indications, including central nervous system diseases, oncology, infectious diseases, cardiovascular and autoimmune diseases.

BioLineRx's business model is based on acquiring molecules mainly from biotechnological incubators and academic institutions. The Company performs feasibility assessment studies and development through pre-clinical and clinical stages, with partial funding from the Israeli Government's Office of the Chief Scientist (OCS). The final stage includes partnering with medium and large pharmaceutical companies for advanced clinical development (Phase III) and commercialization.
