

BioLineRx to Report First Quarter 2015 Results on May 18, 2015

May 11, 2015

Management to hold a conference call at 10:00 a.m. EDT

JERUSALEM--(BUSINESS WIRE)--May 11, 2015-- BioLineRx Ltd. (NASDAQ: [BLRX](#)) (TASE: [BLRX](#)), a clinical-stage biopharmaceutical company dedicated to identifying, in-licensing and developing promising therapeutic candidates, announced today that it will release its unaudited financial results for the quarter ended March 31, 2015 on Monday, May 18, 2015, before the U.S. markets open.

The Company will host a conference call on Monday, May 18 at 10:00 a.m. EDT featuring remarks by Kinneret Savitsky, Ph.D., Chief Executive Officer of BioLineRx, and Philip Serlin, Chief Financial and Operating Officer of BioLineRx. The conference call will be available via webcast and can be accessed through the Investor Relations section of BioLineRx's website, www.bioplinerx.com. Please allow extra time prior to the call to visit the site and download any necessary software to listen to the live broadcast. To dial into the conference call, please dial 1-888-407-2553 from the U.S. or +972-3-918-0644 internationally.

A replay of the conference call will be available approximately two hours after completion of the live conference call at www.bioplinerx.com. A dial-in replay of the call will be available until May 21, 2015; please dial 1-877-456-0009 from the U.S. or +972-3-925-5944 internationally.

About BioLineRx

BioLineRx is a publicly-traded, clinical-stage biopharmaceutical company dedicated to identifying, in-licensing and developing promising therapeutic candidates. The Company in-licenses novel compounds primarily from academic institutions and biotech companies based in Israel, develops them through pre-clinical and/or clinical stages, and then partners with pharmaceutical companies for advanced clinical development and/or commercialization.

BioLineRx's current portfolio consists of a variety of clinical and pre-clinical projects, including: BL-1040 for prevention of pathological cardiac remodeling following a myocardial infarction, which has been out-licensed to Bellerophon BCM (f/k/a Ikaria) and is in the midst of a pivotal CE-Mark registration trial scheduled for completion in mid-2015; BL-8040, a cancer therapy platform, which is in the midst of a Phase 2 study for acute myeloid leukemia (AML) and has just completed a Phase 1 study in stem cell mobilization; and BL-7010 for celiac disease, which has successfully completed a Phase 1/2 study.

In December 2014, BioLineRx entered into a strategic collaboration with Novartis for the co-development of selected Israeli-sourced novel drug candidates. The companies intend to co-develop a number of pre-clinical and early clinical therapeutic projects through clinical proof-of-concept for potential future licensing by Novartis.
